Wednesday, 16 September 2009

Client details: James Forbes

Po Box 117

Poowong

Patient details: Name: Holly #: 42328

Breed: Golden Retriever Sex: female

Colour: Gold Age: 3 years

Microchip Number: 95600000915592

Registered Breed Name: Bickelwood Holly Berry

Note: Much of the information regarding patient identification is based on details provided by owner and is not readily able to be verified by the attending Veterinarian.

Audible evidence of a murmur: No

This is not consistent with typical aortic stenosis.

Note: The murmur associated with aortic stenosis is usually apparent from a young age but may 'develop' over the first several months of life. However it is a progressive disease and the audible assessment of the murmur may change with time.

Signed:

Robert Labuc BVSc MVS FACVs (Canine Medicine)
